

To Attendees of the November GTCC Meeting,

I would like to clarify that the information contained in handouts, distributed at the entrance to the Vista Room building by the group “Friends of Old Lutherville,” were this groups’ personal opinions, and not the opinions of the GTCC.

This group has been siding with the developer, and are comfortable with the developer’s plan for 400 apartments at Lutherville Station.

Unfortunately, the GTCC did not have prior knowledge that these handouts were going to be distributed.

The GTCC stands with the Lutherville Community Association in their opposition to the developer’s plans for 400 apartments to be built at this Lutherville Station location.

In the future, the GTCC will require that any and all handouts to be distributed at our meetings must be presented to our Board for written approval at least one day in advance of the meeting.

Thank you for adhering to this new requirement.

Kindest regards,

Kathleen Beadell, President of GTCC
